Tanning is a long and complicated process, dependant on many factors, how well the animal was skinned, how well it was salted, length of time between salting and tanning, delivery method, hairiness, cleanliness, breed (eg dairy breeds are thinner skinned), sex (eg bull skin is thicker than cow). By signing this form you agree that although HHH will do its best to tan your skin, sometimes it is not possible, and due to things outwith our control it may not be possible to tan your skin if it has deteriorated during the process. No compensation is offered under any circumstances.

As of April 1st 2014 we **do not** pick up from abattoirs or drop of, you can deliver directly to us in person or in a suitable container by courier. You can pick up from us or delivery by courier. **Please call first** as you need the relevant paperwork to come with the hide.

Once your hide is ready we will notify you. You then have 30 days to pay or we keep the hide to cover expenses, by signing this for you agree to all the above.
